Summary

Junior Penetration Tester | Cybersecurity Enthusiast Results-oriented security professional with hands-on experience in Vulnerability Assessment and Penetration Testing (VAPT). Skilled in leveraging Wireshark, Nmap, and Metasploit to secure complex network infrastructures. Successfully compromised and documented 50+ machines on Hack The Box and TryHackMe, simulating real-world cyber-attacks. Expert in Python for exploit modification and automation. Passionate about Red Teaming and Threat Mitigation, with a focus on continuous learning and aligning security measures with industry standards (CEH,).

Education

Bachelor of Computer Science Engineering.,
Modern Academy for Engineering and Technology
Degree (B-)

2020 – 2025
Maadi, Cairo

Training & Certifications

National Telecommunication Institute (NTI)
Ministry of Communications & Information Technology (MCIT) 4-Month
Professional Training Program Cybersecurity / Red Team

- Intensive hands-on training in cybersecurity fundamentals
- Practical penetration testing techniques
- Web application security testing (SQLi, XSS, authentication flaws)
- Network security and vulnerability assessment
- Security tools usage and attack simulation
- Technical reporting and documentation

09/2025 – 01/2026
Smart Village, Cairo

Digital Egypt Pioneers Initiative (DEPI)
Ministry of Communications & Information Technology (MCIT) *Penetration Testing*
Track Professional Technical Training Program

- Hands-on training in penetration testing methodologies and tools
- Web application security testing (SQLi, XSS, CSRF, IDOR)
- Network penetration testing and vulnerability assessment
- Ethical hacking techniques and exploitation fundamentals
- Reporting and documentation of security findings

04/2024 – 10/2024
Cairo

Internship Experience

Cybersecurity Intern, Hack Secure

- Performed web application security assessments
- Identified and exploited vulnerabilities such as SQL Injection, XSS, CSRF, IDOR, Authentication & Authorization flaws
- Conducted manual and automated vulnerability scanning
- Assisted in penetration testing reports and security documentation
- Worked with real-world web applications in simulated and real attack scenarios
- Gained hands-on experience in offensive security methodologies

04/2025 – 11/2025
Remotely, India

Courses

Jr Penetration Tester , <i>TryHackMe</i>	01/2026 – 03/2026 Online
eLearn Security Junior Penetration Tester (eJPT) , <i>NetRiders</i>	08/2023 – 10/2023 Online
Certified Ethical Hacker (CEH) , <i>NTI</i>	11/2023 – 01/2024 Cairo University, Cairo
Introduction to Cybersecurity , <i>Cyber Talen</i>	12/2023 – 12/2023 Online
Cisco Certified Network Associate (CCNA) , <i>NTI</i>	05/2023 – 07/2023 Cairo University, Cairo
System Administration	Online
Basic PHP , <i>YAT Academy</i>	Maadi, Cairo

Projects

Graduation Project , <i>Practical Penetration Testing</i>	09/2024 – 06/2025
Led a team of 4 to identify and mitigate 12+ web vulnerabilities (SQLi, XSS, insecure auth, insecure api) while gaining hands-on experience through 50+ CTF-style labs, producing clear remediation reports for stakeholders.	
Auto Hunter Automated IP Scanner & Prioritization Tool	09/2024 – 01/2025
Developed an automated tool using Nmap and ML-driven prioritization to scan and rank hosts by risk, improving triage efficiency by 60% and reducing manual reporting time by 40%. Tested on 500+ IPs with optimized scan performance.	

Technical Skills

Programming Languages

Python, PHP, MySQL, java script

Network Pentesting

Port Scanning, Vulnerability Assessment, Service Enumeration

Operating Systems

Linux (Kali, Ubuntu), Windows

Web Pentesting

SQL Injection, XSS, CSRF, IDOR, Authentication & Authorization flaws

Cybersecurity Tools

Nmap, Burp Suite, OWASP ZAP, Nikto, Metasploit, wireshark, Hydra, sqlmap

Active Directory Security

Active Directory Enumeration, Kerberos Attacks, Pass-the-Hash, Pass-the-Ticket, Privilege Escalation, Lateral Movement
